

Kansas 4-H Dog Conference Quiz Bowl Team Formation Details

There are a maximum four members and a minimum of three members per team. Teams may be formed by counties or by districts. In the event there are not enough members to form a team, then participants may compete on "Open" team made up by combining participants from other counties/districts. All teams will have the same questions.

The selection of each team is determined by the county/district. The selection of "Open" teams is completed by action team members/KSRE staff to combine older and younger members together in a fair combination. Counties/districts may submit multiple teams. For example, a county could have three to four different teams of three/four members each.

After quiz bowl teams have been selected or designated, there will be no changing of team members. A team of three members is acceptable, but they forfeit the answering the question for the fourth member.

Open teams and County/District teams compete separately. There will be Champions and Reserve Champions from both divisions.
